Council of Mun. District Montgomery Considers Change in Highways

Four Applications Made for Old Pension—Dept. Municipal Affairs Writes re Appeals to Alberta Assessment Commission—Land Acquired for Road Construction—Bills and Paysheets Passed for Payment

The regular meeting of the Municipal Council of Montgomery No. 458, was held in the Council office on Saturday, August 2nd. All the Councilors were present.

The minutes of the last meeting were read and adopted on the motion of Councillor Freeman.

Correspondence was read from the following:

Dept. of Public Works re the road allowance to the north of N.E. 11-47-23-4, agreeing to the proposal of the Council.

Dept. of Municipal Affairs re appeals to Alberta Assessment Commission. The Central Alberta Sanatorium re the admission of Mrs. Maritana Nelson and Mrs. I. M. Johnson.

The Old Age Pension Dept. re the application for pensions made by: William Campbell, Miller, Christian Gundersen, R3 Wetaskiwin; W. H. Leach, Wetaskiwin; O. J. Anderson, R2 Millet.

Nels Luden interviewed the Council and complained about the work that had been done on a road at a point known as the Woldron Hill. He was informed that no further expenditure could be made on the work this year.

G. F. Root interviewed the Council re some culverts that were necessary where a new grade had been built this year. The Council in the Division concerned agreed to deal with this matter.

Mr. A. S. Craig interviewed the Council re the road diversion at Hurd Lake.

Moved by Reeve Ballhorn that the Council recommend the Dept. of Public Works to cancel the road plan of the diversion round Hurd Lake as it affects the N4 Sec. 22-48-23-4 and S.V. 46-23-4, and that the land be returned to the owners of the said quarter sections. Carried.

Moved by Councillor Bussard that Bylaw No. 29-4 be read a first time. Carried. Bylaw No. 29-4 providing for the acquisition of land in the N.E. 24-46-23-4 and S.V. 24-47-23-4 for the purpose of building a road was then read.

Past President Dominion Body Presents Awards at Big Spread

A most enjoyable and successful banquet was held at the Driford hotel on Wednesday evening last, when the visiting athletes were entertained by the citizens. Mayor Montgomery, who acted as chairman, extended the greetings to the visitors from the citizens of Wetaskiwin, the Board of Trade, Kiwanis Club, Elks and Moose Lodges, and Wetaskiwin Ladies' Amateur Athletic Club and the Sports Association. After briefly referring to what had been achieved in athletics in the province during recent years, he extended an invitation to hold the Provincial meet in Wetaskiwin again next year.

Judge Jackson of Lethbridge, a Past President of the Amateur Athletic Union of Canada, was the next speaker, and at the outset of his remarks informed the gathering that he had "beaten Wetaskiwin to it," in that an invitation had been extended and accepted to hold the Provincial Meet in Lethbridge next year, and that it was his intention to invite the Women's Amateur Athletic Federation to join in the Meet to be held in Lethbridge. The Judge was in a very happy mood and gave a very interesting and witty address. He was of the opinion that 95% of the people in the penitentiaries of Canada were there because they were not interested in athletics. You do not generally find criminals in the field of athletics. "No work and no play makes Jack a criminal," Judge Jackson paid a tribute to B. W. Bellamy, stating that he was the man behind the guns who had successfully carried out two provincial meets in Wetaskiwin, and he was pleased to see the spirit of co-operation as proven by the successful way in which the Championships and sports were held.

C. H. Croft of Edmonton, President of the Alberta Branch of the A.A.U. of C., in his remarks stated that he thought the churches should get behind athletics, as much more could be accomplished if they did. He also brought greetings from the Amateur Athletic Union of Canada.

John Leslie, secretary of the Amateur Athletic Union of Canada, referred to the fine spirits shown by the athletes whether they had won or lost and he congratulated the coaches for the painstaking way in which the contestants were trained.

Stanley Glover of Edmonton, congratulated not only the winners but the losers, and urged them to keep up their training and at themselves for the next year's meet, when they might be successful in winning the Championship. Fred Gardner of Calgary advised the losers not to become downhearted, but to gain by the experience which they had during this meet, and to go home with a determination to become a winner next year.

He stated that in Calgary they were training athletes not only for the benefit of athletics, but for the general good of health. He stated that he had enjoyed both Wetaskiwin meets, and congratulated those in charge.

Mr. McLarin of Red Deer, expressed the opinion that the athletes of today were better and more honorable than they were years ago. All parts of the world were proud of real sports. He referred to the meet at Red Deer on August 21 and hoped to see many of the Provincial athletes there on that occasion.

"Bill" Matthews of Edmonton, the announcer de luxe, was introduced as the human megaphone, and gave a very thoughtful address, taking the letters of the word Sport as his theme—S referring to Stamina, P for preparedness, O for opportunity, R for records and T for training.

B. W. Bellamy was then called upon for a few remarks, and he heartily thanked all those who had cooperated with him in making preparations for the meet. He expressed the opinion that as Wetaskiwin had held the Provincial Meet two years in succession that in the best interests of sports it would not be well to have the meet here next year. He extended an invitation on behalf of the Wetaskiwin Sports Association to hold a meet here in 1931.

During the evening, Miss Constance Buck rendered a solo and encore, and community singing from time to time helped to keep the large gathering in a very happy mood. Mrs. H. J. Montgomery presided at the piano.

His Honor Judge Jackson presented the five trophies and seventy-two medals to the respective winners.

MANY GOOD CROPS IN WETASKIWIN DISTRICT

R. C. Young of Hillsdale, the weed inspector for the Municipal District of Bristow, was a welcome caller at The Times office Tuesday morning. He drew our attention to the fact that there are many excellent crops throughout the district of Bristow. Although there are some areas which will have a small yield as a result of the drought, there are many areas which promise a wonderful crop. He is confident that there is one large field which will yield at least 50 bushels of wheat per acre, while many others will go 35 bushels or better to the acre. The recent showers are helping the late crops and pastures to a marked degree.

Town Topics

Mr. A. S. Craig is erecting a windmill on his farm northeast of the city.

J. F. Hodson attended the Alberta Provincial Convention held in Calgary last week.

D. Simmons of Fort Saskatchewan, and brother William, spent a few hours in the city on Tuesday.

Mr. and Mrs. Charlie Craig gave a dinner in honor of their aunt, Mrs. Ellen Caldwell, on Sunday last.

Mrs. C. Connelley was successful in passing the Intermediate Harmony Toronto Conservatory, with first-class honors.

Miss Edna Johnson returned to the General Hospital, Edmonton, on Monday, after spending the holidays with relatives here.

Miss Flora Stewart is spending part of her vacation at Camp Lake, Viking, the guest of her uncle and aunt, Mr. and Mrs. J. C. Stewart.

Mr. Per Selvig, the Norwegian reporter, who is making a study of conditions among Norwegian immigrants, was a visitor at The Times on Friday.

Mr. A. Knox, barrister, Wetaskiwin, will open a branch office in Ponoka in the near future, and will be in attendance from time to time.—Ponoka Herald.

The Ford touring car, owned by Kramer Brothers of Hobbema, which was stolen on June 15th, has been located at Magrath, and was brought back last week.

Judge and Mrs. Jackson of Lethbridge, and Inspector and Mrs. McLarin of Red Deer, were guests at the home of Mr. and Mrs. Geo. F. Root during the past week.

The Barrie Entertainers were a special feature at the Angus Theatre on Monday evening. Mr. Barrie proved himself to be a mystic artist above the average and his handiwork stunts were indeed very interesting and mysterious.

Mr. and Mrs. P. A. Miquelon returned last Sunday from a three week vacation spent at Waterton and Glacier Parks. Mrs. Miquelon also spent a few days at Lethbridge, guest of Mrs. T. C. Rubbra, formerly of Wetaskiwin.

Rev. Appelt was in Bismark on Monday and Tuesday on official duties. He reports that crops on the whole are poor, but there are also a few excellent ones. Many farmers have begun harvesting their early wheat and barley.

Mrs. Chalmers and family have returned home, after spending their holidays with friends in Saskatchewan.

The Gulesken residence, owned by Mr. Lingjerde, has been purchased by Mr. and Mrs. Lasell. Mr. and Mrs. Lingjerde are moving to Camrose in a short while.

Messrs. C. D. Compton and H. Cochran of Hughenden, and Mr. R. W. Manley and Dale of Wetaskiwin, went on a fishing trip for a few days last week in the Clearwater and Raven rivers, west of Innisfail. They report an enjoyable trip, and managed to land about 35 trout, bringing some of the catch back to town.

On Friday evening last the fire brigade received a call to a fire which broke out in the Bank of Montreal building, in the rooms occupied by Miss L. Hinchberger. The coal oil stove fell over, and the oil running on the floor caused the flames to ignite in the furniture and curtains. Miss Hinchberger had the misfortune to lose all her personal articles, which was quite a serious matter, as she had no insurance. The loss is estimated at about \$500, the loss to the Bank being covered by insurance.

Mrs. McArthur of Montgomery Bros. Ltd., has just returned from a buying trip. While at Seattle she attended the Merchants and Maritime Exposition, where thousands of buyers from all over America viewed the finest display of fashionable merchandise ever exhibited in America. While there she also attended the Fashion Promenade, where gowns had been brought from as far as Paris, New York, Hollywood, and other outstanding style centres.

City's Tax Rate 4 1/2 Mills Higher Than Last Year

At the special meeting of the City Council held on Tuesday evening, the rate of assessment for this year was placed at 4 1/2 mills, made up as follows: General 10 1/2 mills; Debtenture, 16 mills; Public and Separate Schools, 18 1/2 mills.

This is 4 1/2 mills higher than last year, the higher rate being caused by the public school demand being increased by \$3,000, while \$2,000 has been expended on the park, and also the construction of concrete walks and other minor expenditure.

Total assessment, including School lands, \$2,932,370.

Assessment for City only, \$1,866,170.

Obituary

JAMES MCCORMICK MCLAUGHLIN
One of the earliest settlers of the Wetaskiwin district passed away at the Wetaskiwin hospital on Monday morning, in the person of James McCormick McLaughlin. He was aged 31 years and nine months, and the cause of his death was plural pneumonia. Mr. McLaughlin has been a highly esteemed and respected citizen of the Malmu district for the past thirty-eight years, and his many old time friends regret to hear of his passing.

He leaves to mourn his loss, his wife, two sons, Edward and Don, and a daughter Mary.

The funeral was held on Wednesday afternoon at 2:30, services being conducted by Rev. O. H. Miller, at the Malmu church. Interment took place in the Malmu cemetery.

WETASKIWIN LAD TO APPEAR AT SENIOR CHAMPIONSHIPS

James Paton, who made such a splendid showing in the Junior track and field championships of Alberta held here last week, will probably participate in the senior championships at Red Deer next Wednesday. While Jim does not expect to grab off any of the golden jewelry, he's out for the experience. Jim should be a big winner in the Junior events next year at Lethbridge, as Frank Richards champion for the past three years, will pass over the age limit next month.

Town Topics

Mrs. H. C. R. Walker spent the week-end at Hobbema, the guest of Miss Mann.

Mr. Cairns of Strome, is assisting at the Cooke Drug Store, while Earl Lindskog is on his holidays.

Mr. J. E. Fraser of the City Office, left on Wednesday for Vancouver and Victoria, where he will spend his holidays.

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. L. O. Felland, on Friday, August 16th, at 3 p.m.

Mrs. F. Atkinson returned on Friday morning from Revelstoke, after spending a week with relatives and friends.

Mr. and Mrs. J. E. Knott of Edmonton, accompanied by Miss Kathleen Walker, are motoring to Minneapolis and other American cities.

Harvesting has commenced in the community, as several fields of grain have already been cut. Weather condition are ideal for harvesting.

P. A. Miquelon left Monday morning for Kamloops, B.C., to attend the annual Grand Lodge Convention of the Elks being held there this week.

Mr. A. C. Stewart of the Canadian Bank of Commerce, St. Paul de Metis, is a patient in the University Hospital, Edmonton, for a few days.

Dr. and Mrs. J. Stevenson and family returned last week, after spending their holidays at Vancouver, Victoria and also Seattle, where the doctor attended the convention.

"Oh Wetaskiwin evening last, after the banquet, many of the visitors attended the dance given in the Elks hall, where they were the guests of the Wetaskiwin Lodge B.P.O.E. No. 91.

Mrs. Theodore Theisges of Chicago, is visiting with her cousins, Mrs. William Schreffels of Wetaskiwin and Mrs. Nick Schreffels of Duhamel, whom she has not seen for about thirty-three years.

Mrs. Ellen Caldwell left for her home in Winnipeg Saturday, after spending some time visiting her sister, Mrs. A. S. Craig. She also spent two weeks at the home of her sister-in-law Miss Carrie Caldwell of Edmonton.

Mr. A. Beaumont is leaving for Lethbridge about the 17th of this month. The family will follow later.

Mr. Wm. Lucas, barrister, of Edmonton, has taken over Mr. Beaumont's practice and is now conducting the office.—Ponoka Herald.

Mr. and Mrs. Frank Brock of Andrew, Alta., visited at Ma-Me-O Beach last week, being the guests of Mrs. Brock's sister, Mrs. W. G. Dietz. During their stay their son Billy was christened by Rev. Armstrong, whose family are also guests of Mrs. Dietz.

The increasing business of the Calgary Power Co., in the city district has made it necessary to have a resident representative. Mr. J. A. Mjolsness of Red Deer has been appointed and has taken up his residence in the Playle cottage, Innisfail Province.

R. P. Pidgeon has resigned his position with Lowry's Limited and is preparing to leave for Edmonton where he has secured employment. During his short stay here, Mr. and Mrs. Pidgeon have made a host of friends, who regret their departure from the city.

The following pupils of Mrs. C. Condie were successful in passing their Toronto Conservatory examinations: Ethel Johnson, elementary piano, honors; Phyllis Williams, primary piano, pass; Elnora Abousaffy, primary piano, pass; Rhoda Cook, junior piano, pass; Earl Baker, elementary violin, pass.

A pleasant evening was spent at the home of Mr. and Mrs. N. K. Bakken on Monday, when a large number assembled in a surprise party in honor of Mr. and Mrs. W. Hodson. The evening was spent in conversation and music, several numbers being rendered by Dr. Gulesken, Rev. Asper, Miss Gulesken and Miss Moon, accompanied by Mrs. Asper. On behalf of those present, Rev. Asper presented Mr. and Mrs. Hodson with a handsome gift, to which Mr. Hodson suitably replied. A delicious luncheon was served later in the evening.

Wetaskiwin Is Birthplace of Provincial Body in Charge of Athletics for Women

Alberta Branch of Women's Amateur Athletic Federation of Canada Formed at Driford Hotel Assembly Room Following Athletic Meet, With Wetaskiwin Ladies Being Selected as President and Treasurer—Will Hold Women's and Girls' Provincial Championships at Lethbridge Next Year

History was made in Wetaskiwin last Wednesday evening at the Driford Hotel, following the Track and Field Championships of Alberta, when the Alberta Branch of the Women's Amateur Athletic Federation of Canada came into being. Application for affiliation is being forwarded to the head offices in Toronto this week, and on and after October 31st of this year the new Alberta Branch will have full control of amateur sports among women and girls within the confines of the province. The Alberta Branch of the Amateur Athletic Union of Canada will at that time relinquish control, and thenceforth the new organization will handle its own registration system, issue its own amateur cards, handle its own championships and select its own program. They will, however, have the fullest co-operation of the Alberta Branch of the A.A.U. of C.

In addition to a representative attendance of women at the meeting, which was temporarily presided over by Mrs. A. Rodell, president of the Ladies' Amateur Athletic Club of Wetaskiwin, prominent gentlemen connected with amateur athletics were present, including His Honor Judge Jackson, past president of the A.A.U. of C., C. R. Croft and R. J. Foster, president and secretary of the Alberta Branch of the A.A.U. of C., and J. Leslie, secretary of the parent body.

B. W. Bellamy, Alberta representative on the Advisory Board of the A.A.U. of C. to the W.A.A.P. of C., fully outlined the policies and method of administration of the Federation, and presented a draft constitution and by-laws, which were adopted, after which officers were elected as follows:

President—Mrs. B. W. Bellamy, Wetaskiwin.

Vice-presidents—Mrs. L. M. Clarin, Calgary; and Miss Vera Palmer, University of Alberta.

Secretary—Mrs. R. J. Foster, Edmonton.

Treasurer—Mrs. A. Rodell, Wetaskiwin.

Advisory Committee—B. W. Bellamy, Wetaskiwin; Fred Gardner, Calgary; and J. Leslie, Edmonton.

On an invitation being extended by His Honor Judge Jackson, the newly formed Branch decided to hold the Women's and Junior Girls' Track and Field Championships of Alberta in the city of Lethbridge next year, probably in conjunction with the Junior Boys' Championships.

PRIZES GIVEN FOR COSTUMES
A street parade was held in connection with the Provincial Sports on Wednesday afternoon last, when prizes were given for the best fancy and comic costumes, as well as for the smallest boy and girl in the parade. The committee selected the following as prizewinners: Fancy—Gill, Nelda Faulkner; boy, Jackie Shillabeer; Comic—Gill, Alice Chappell; boy, Joe Cole; Smallest Girl, Kathleen Rush Welsh; boy, Harvey Patterson.

NORMA IS BIG NOISE AT CARDSTON SHOW TODAY
Mr. and Mrs. F. Chiddy, Miss Norma Chiddy and Mr. B. W. Bellamy left on Tuesday on a motor trip to Cardston and Waterton Lakes. Miss Chiddy will appear as the feature attraction at an invitation track and field meet in Cardston on Thursday, taking part in the sprints and jumps, being the only representative of Northern Alberta.

"Someone To Love" is the title of Buddy Rogers' new picture. It's a row. See it at the Angus Theatre on Wednesday and Thursday, August 21 and 22.

Many Records Were Shattered and Locals Got Several Medals

Several more provincial records went by the boards at the Provincial Junior and Women's Track and Field Championships held here last week. Much of the credit is due to the activities of the Wetaskiwin Sports Association in providing such an excellent running track and exercising such care in providing the best of facilities for performing in the jumping and weight events. A fast track, well laid out, and good even firm foundations for other events have meant the expenditure of much money by the Association, but that body, and the city, enjoys the satisfaction of learning from all sources officials and athletes, that arrangements were above slightest criticism. When it is considered that on the occasion of the Meet here last year, several records were broken, it can be well understood that track and field athletes are by no means on the wane in that several more were smashed last week.

In the women's relay, 440 yards, the time was 5 seconds, at against the old mark of 1 minute flat. In the 220 yards for girls last year Miss Norma Chiddy made a new mark of 28 4/5, which was subsequently beaten by Miss Gwen Roxborough of Edmonton, in 28 3/5. Last Wednesday Mary Humphries of Edmonton, negotiated the distance in 27 3/5, with Miss Chiddy's running second, ahead of the former record holder.

In the women's discus throw Pudge Sewell of Edmonton, tossed the saucer 82 feet 3 inches, the former mark being held by Gladys Fry of Edmonton, at 66 feet 11 inches. Highly impressive was the performance of Miss Cheek of Calgary, who smashed two records: setting off a fifth of a second in doing the hundred yards in 12 flat, and chopping the time for the two twenty yards from 31 seconds to 27 seconds, the record holder, Miss Hansen, of Cardston, finishing third in both events.

In the running broad jump Charlotte Daws of Edmonton, broke her own record of 14 ft. 1 in., by leaping 15 feet 3 inches. In the girls' running high jump, Miss Mona Wade, of Medicine Hat, who was defeated by Margaret Hogan of Edmonton, last year, at 4 ft. 4 in., on Wednesday last leaped over the bar at 4 ft. 6 1/2 in. for a new record, Miss Hogan placing

second, in the boys' events, Harold Alderice of Alliance, broke his own mark by three inches when he jumped 5 ft. 5 1/2 in. In the 220 yards for boys the record of 23 3/5 was equalled, which goes to show that Jim Paton (travelling some to take third place).

Wetaskiwin athletes fared much better than they did one year ago. Norma Chiddy headed the list with two beautiful silver cups, four gold medals, three silver medals and a beautiful necklace; Florence French received two silver medals and Dorothy Chappell three silver medals. Jim Paton helped himself to a couple of bronze medals also, while Mrs. M. Bluckenstein annexed one. Last year but two medals were won by local athletes.

POLICE COURT
Before Magistrate R. M. Angus, Joe Young, on a charge of beating his half way fare, was given 30 days' hard labor at the Provincial jail.

Mary Ellen Webb of Breton, was committed to the Mental Hospital at Ponoka.

Ellen McLeod, under the Juvenile Delinquency Act, was made a ward of the government and was taken north by Inspector Parker.

Edward McLaughlin, charged with assault, had his case dismissed, the Crown offering no evidence owing to the fact that the complainant had become deceased owing to a sudden attack of pneumonia.

W. A. Phillips and Charles Smith of no fixed abode, for an infraction of the Railways Act, were each given three months' suspended sentence.

Melville Courtwright of Calgary, on three charges of breaking and entering the Banner Store at Wetaskiwin, Hinchberger Brothers Service Station at Hobbema, and F. Foeys' garage at Millet, was committed for trial and sentenced to one year at Port Saskatchewan.

"The Yellow Lily," starring Billie Dove and Olive Brook, is one of the most unusual romances ever screened. Be sure and see it Monday and Tuesday, August 19 and 20.

double what it received from all motor vehicle imposts combined.

For the last fiscal year ending October 31st, 1928, Ontario took in \$11,077,013 on motor vehicle account which included gasoline tax, license fees, motor permits of all kinds and fines. In the same period, it spent \$17,500,000 on provincial highways, country, township and Indian reserve roads and connecting links. Besides this, the northern development branch of the department of lands and forests spent \$4,556,000 on colonization roads during this period.

—Stettler Independent.

GEARED WITH GREER

(By Edwin Greer, President Greer College, Chicago, Ill.)

Stop lightly on the gas when your rear tires are in poor condition. A blowout when speeding can cause a car to skid off the side of the road or even turn turtle.

Unless a driver is a strong man and keeps a mighty firm grip on the wheel his car is sure to skid dangerously if he has a blowout. The reason is that when a tire blows out, the resistance offered to it as it rolls is tremendously increased. This swings the car around sharply and since the speed is high, and it all happens in the fraction of a second, unless the driver is braced for it and is holding on to the steering wheel he has not time to save the situation.

The average motorist wastes gallons of gasoline every year because he allows his carburetor to run on too rich a mixture. By a little study of his carburetor he soon learn how to adjust it to cut down on the gas or introduce more air in the mixture. This not only means a big saving in gasoline, but less carbon and a sweeter-running engine.

The average motorist has a mistaken idea that the gravity of gasoline is an absolute test and proof of its efficiency for motor car use, when in fact a lower gravity gasoline will propel a car more miles per gallon of gasoline.

The reason of this is easily explained because the lower gravity gas requires much more air in the carburetor for proper combustion. Scientific tests have demonstrated that there is 20 per cent. more mileage in a 65-degree gravity gasoline than there is in a 74-degree gravity.

As the gravity of motor gasoline has gotten lower each year, it is well to remember that a carburetor now one, two or three years old cannot work as efficiently on the grade of gas—unless it gets more air.

The different items of expense in keeping an automobile divide the average cost per mile as follows: Depreciation, 30.7 per cent.; repairs, 21.7 per cent.; gas, 21.3 per cent.; tires, 8.3 per cent.; garage rent, 6.5 per cent.; interest, 4.7 per cent.; oil, 3.7 per cent.; insurance, 1 per cent.

EASY OPTIMISM

(By Walt Mason)

It is so easy to be gay, when pleasant things all come your way! We have no aches in bones or shoes, and painless feet infest our throats, and we have pies of every brand, that any monarch could demand, our purses are not lean and lank, we have a package in the bank, and so we blithely smile and sing and wave our hats like everything. We take great credit to ourselves for being joyous, cheery, and far, and look with scorn on those who'd mar the gladness of a perfect

day by putting up a mournful bray. "It will not help them to lament," we say of fellows bruised and bent by dire misfortune's savage blows. "When one is bluffed upon the nose, it does no good to raise a fuss—he ought to smile around like us." It is so easy to rejoice when there is no discordant voice reminding us of debts we owe, of sickness or of other woe, when our employment will endure, and our investments seem secure, when we have larders stored with trips, and coupons daily growing ripe. We've not much patience with the lad whose map is haggard, drawn and sad, because the sheriff closed him up and led away his cow and pup. But when misfortune comes along, and we see everything go wrong, when we must quit the idle rich, when we have gout or harber's itch, I fear our smiles will loop the loops, and we will weep in mournful groups, while other fellows, free from care, reproach us for our bleak despair.

NEW TYPE OF MILK BOTTLE

(London, England, Observer)

It has taken seven years of research and has cost over £120,000 to produce the perfect milk bottle. But it has been done. Already the new bottle is being used by one big London dairy. Milk delivery has long been the greatest problem of the conscientious dairyman. When it comes from the cow, most milk today is as pure and free from the germs of infection as 'right inspection, perfect cleanliness and hygienic management can make it. It is its subsequent transfer from milking shed to kitchen that it often becomes contaminated, with results that are seen in rapid souring, infantile diarrhoea and the like.

The present glass bottles are open to many objections. They are used over and over again, and although the best dairymen take every precaution to sterilize them before they are filled, the consumer has no guarantee that they are sufficiently well sterilized. When it is remembered that germs breed in milk more rapidly than they do in almost any other substance, the need for the most superlative standards of cleanliness becomes obvious.

The ideal, as has been seen by the best dairymen for a long time, is a bottle that is completely sterile, and hermetically sealed, is used once only and that is destroyed immediately after use.

Such a bottle has at last been invented. It is made of cardboard, actually in the dairy and in the process of filling. After being shaped it is automatically dipped into pure wax, which completely sterilizes it and makes it airtight. The bottle is then in continuous process filled with milk and sealed. Neither bottle nor milk is touched by hand, and the whole operation is conducted in one building, supplied with specially filtered and germ-free air, the milk can be guaranteed as pure as it is possible to supply it. In such a bottle, specially cooled milk has been kept sweet for a month. In ordinary practice it will keep fresh for a week.

TAKING CHANCES

(By Walt Mason)

The man on foot would cross the street, a date to keep, a friend to meet. The law decrees that he should walk up to the corner of the block before he goes across the street on eager and impatient feet. He knows quite well that this is so, but it is quite a way to go, and he is keen on saving time—to waste a moment is a crime. So up and down he throws a

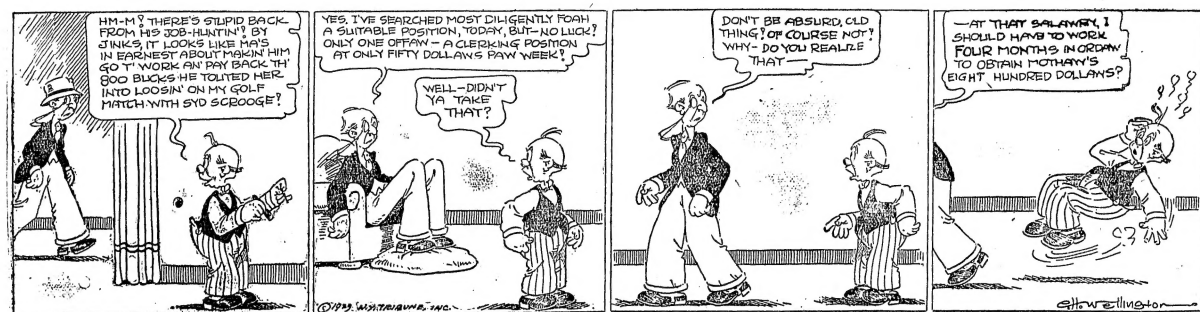

IMPORTANT C.N.R. CHANGES

The appointment of a vice-president in charge of the Western Region of the Canadian National Railways, with headquarters in Winnipeg, was the outstanding feature of a number of important changes in the operating department personnel of the company announced to take place on August 1st. Three of the chief officers concerned are shown in the photographs. In the centre is A. E. Warren, formerly

General Manager of the Central Region, who becomes Vice-President of the Western Region. On the right is W. A. Kingsland, formerly General Manager of the Western Region, who becomes General Manager of the Central Region, and on the left is A. A. Tisdale, formerly assistant to the General Manager of the Western Region, who becomes General Manager.

vented. The times between the occurrence of the bite and the development of symptoms—the incubation period—varies a good deal; the average in man is about forty days. If the disease is to be prevented, it is necessary that the treatment, which by the new Simple method takes fourteen days, be completed, and in 7 fourteen days be allowed for the full development of the protection which the treatment gradually produces. In order to secure the necessary twenty-nine days before the symptoms develop, it is essential that the treatment be started at the earliest possible moment.

Persons who are bitten by animals should immediately consult their physician in regard to treatment. The doctor will cauterize the wound with fuming nitric acid and will advise as to the Pasteur preventive treatment after considering the circumstances. The animal responsible should not be killed, but should be captured and kept. If it has rabies, it will die in a few days. If after ten days, the animal shows no symptoms, this is evidence that it is not suffering from rabies. In the meantime, treatment will have been started because, as stated, there is no time to be lost, and it is continued until the physician is certain that it is not required, or, if it is required, until the treatment has been completed.

Questions, concerning health, addressed to the Canadian Medical Association, 134 College Street, Toronto, will be answered personally by letter.

THE TIGER TRAIL

by Edison Marshall Illustrations by PAUL FREEMAN

Dr. Long is visiting Southley Downs to which he is conducted by Ahmad Das, an Oriental. There he meets Mr. Southley, whom a detective friend, Alexander Pierce, has told him to watch, and his son Ernest Southley, Mr. Hayward and his son Vilas, and then Josephine Southley, whom he had seen faint on the train. Josephine tells him the story of Southley Downs and its ghost, which is not the ghost of a human being but of a tiger.

Dr. Long has a quarrel with Vilas Hayward over Josephine, and finds that the Haywards have a strange authority over the Southleys. He is or-

dered to leave Southley Downs. The rain prevents him leaving at once. Dr. Long and Ernest go out on the road in the rain looking for the tracks of a tiger that Ernest says are there.

They find the tracks. Later Ernest and Dr. Long see a prowling creature in the hall of Southley Downs. This frightens the older Hayward, who also sees it. Ernest begins to feel that Ahmad Das is perpetrating some devilry.

The elder Hayward is later found dead, his neck broken as if by a giant's blow.

The coroner and police arrive in order to investigate.

Because of the murder, Dr. Long must remain at Southley Downs. All the persons there are questioned by Inspector Freeman.

Dr. Long becomes jealous of the love he believes to exist between Vilas Hayward and Josephine. During the course of investigations of the crime Dr. Long becomes suspicious of a man named Nobla. He determines to watch him.

Josephine Southley begins to show some warmth toward Dr. Long during the course of the investigations of the murder. In the library, Dr. Long meets Vilas Hayward. Both watch the Oriental, Ahmad Das, who is half-obscured in the dim light.

IN WITH THE STORY

There was an effect of silence, too, possibly induced by the accentuation of the faint sounds that were present. It seemed to me that I could hear distinctly the rustle and whisper of per- fumes from the door by the wall.

A window shade lowered with the faintest stir of sound. Then there were the hushed, manifold sounds of the night that came unheeded and

couldn't describe it except to say it was as if he felt a rapture in it. Nor was he calm any more. There was a strange nervousness upon him, like an intense eagerness, and his lips were drawn, over so slightly. He crawled about so slowly, his body so close to the floor.

Then Vilas spoke again in the silence—the words sharp and clear. My eyes flashed to him. He was leaning forward in his chair, every muscle set, every tendon rigid.

"Ahmad Das!" he commanded. "Go and get some candles."

"Of course, sahib," the Hindu answered from the floor. "They are all gone but these two. Every one, I cannot bring more."

"Then I'm going out to look for Southley."

"He will be hard to find, sahib. There are shadows and water and the jungle between." Then Ahmad's voice seemed to grow indistinguishably softer. "You will need a guide."

"A guide—what do you mean?"

"If the sahib goes, I will take him there. The sahib must not start out in the dark alone! And if the sahib has despaired of Miss Southley meeting him here, and wishes to go to his room, I will go thence with him, too."

Vilas Hayward suddenly snatched open the drawer in the table. For an instant his fingered hands thrust at its interior; then he whirled towards Ahmad.

"Where's my pistol?" he cried. "It was in the drawer."

"Perhaps one of the detectives has borrowed it," he said today.

Again Vilas flung him his chair. Ahmad Ahmad went back to his dusting. His motions seemed to grow more

faded. The shadows hid him, and darkness closed around him.

Yet it wasn't as if he had completely gone. I knew that he was waiting somewhere in the darkness just beyond—perhaps behind the curtains, possibly by the wall. I didn't hear or see him. I simply knew he was there, and in a moment more would come back into the light for the answer to his questions. A long moment passed away. The house was tense and still. And once more I looked at Vilas Hayward.

He had his head turned over his shoulder, and he was watching with fascinated horror something that approached him in the darkness. I couldn't see what it was at first. It was farther away from me. But yet I was aware of the sense of something moving—something half crawling, half sliding toward the man in the chair. And then I saw an irregular gray patch of shadow that was not quite so dark as the shadow around it—a patch which seemed to be moving. And all at once it halted.

The Tiger of Southley Downs had come again. The candlelight was ineffective and dim, yet it showed the outline plainly. Even then I tried to tell myself it was some mental fallacy, a mirage or delusion that could not possibly be true. I tried to say it was the effect of light and shadow; but the lie died before it came to my thought. It wasn't any use to try to deny the reality of the thing. There was the tawny hide, darkened, of course, by the shadow, the low-hung head, the great black stripes. The details were obscured; but my eyes didn't need them to recognize the creature. It seemed to be lying close to the floor. In the position a tiger takes just before it springs.

I couldn't say it wasn't true. It would not have been so convincing if Vilas had not seen it, too. And I knew by the suppressed gasp of the great detective beside me that his eyes were also resting on the thing. I think that he started to whisper some messages of wonder. But I didn't hear him. All I heard was Vilas's scream.

He backed up against the wall, his fingers at his throat. There was no record left in my brain of the sounds he said. Ahmad Das had returned, just as he had promised, to get the answer to his questions. The transformation was complete—the tiger soul at last in its own body. And Vilas was ready to answer.

(Continued next week)

EDITOR SEES THE LIGHT

The Journal has sworn off. Not on good "licker," light wines or beer, but on free ads. In most civilized communities when a ten-dollar write-up is an entitlement, in expected the usual courtesies are extended and the editor is given complimentary tickets. Hardly ever here and they expect a write-up worth \$5 or \$10. Many num-skulled editors write nearly a column

of "No, you devil!" he cried, his voice rising. "You won't get me out there, where you got my father."

"Sahib!"

"And I order you to get off the floor. You're not working now. Get up, or I'll kill you where you lie!"

Ahmad Das got up. He rose very softly to his full height. He tiptoed across the room. And he blew out the light on the little table.

The shadows deepened. There was only one candle now, the one that burned on the table. And I heard a soft, whispered sigh from Alexander.

"The man's a devil," he breathed in my ear. "Vilas called him by the right words."

"What do you want to see him?" I asked. "Do you want to see Vilas murdered before our eyes?"

"Hush—and watch."

We watched. A long time there was silence. Ahmad Das stood still beside the extinguished candle.

"What are you going to do?"

"Do, sahib?" The answer came at last, trembling with some unearthly kind of passion. "It is not well to be imprudent with candles. The detectives might need a brighter light when they return to see what remains here."

Vilas tried to meet the snake's eyes. "What do you mean?" he whispered. "They will come back soon, and want to talk to their guest. One of their guests is gone—you know where. Yesterday they bore him across the water. You only remain, and you are very dear to them, Sahib Strumburg."

"Vilas leaned forward. 'Strumburg? How dare you call me that? My name's Hayward.'"

"Once Strumburg—then Roderick—then Hayward—what does it matter, sahib? Names die when their bearers die."

"But I'm not Strumburg. I tell you I'm not."

"I will remember, sahib, that you told me that. But consider again, and see if you don't want to make me another answer."

"I'll never admit it."

"I'll go from you for a minute, sahib—just a minute into the darkness—and then I will return. I will want your answer then. And there might be other things for you to tell me, too, when I come into your presence a moment from now. You really had no proofs that Sahib Southley was wanted in prison."

"But I have! You can't scare me out of it."

"Both things you can answer when I return to the sahib's presence. It will be just a little moment—"

Vilas half rose in his seat, ordering the servant to relight the candle. But Ahmad didn't obey. Rather he

The tiger of Southley Downs had returned.

strange through the noises—noises so obscure that the ears had to strain to perceive them.

Vilas's face was lighted by the nearest candle. I could really see it more plainly than any other detail in the room. The fact fascinated me at first. All other things were dim and blurred and unreal; but it was sharp and clear. And even this early in the drama it had a quality that was disturbing to me. It had endured much these last three days.

"Good God! There is every one!" he exploded at last. "Ahmad! Ahmad Das!"

The servant arose and came near him, half obscured in the shadows. He stood straight and tall.

"Yes, sahib—"

"Where is everybody? Southley and his son ought to be back by now. What direction have they gone?"

"I do not know, sahib. They told me they were going toward the cottages of the laborers. But I do not turn that way after they had gone out the door."

"And Miss Southley? She was to join me here."

"She has gone, too. I don't know where. The detectives are spending the day across the marsh—on the height."

"But it's time they were back by now. Good Lord, what did they go there for, when the trouble is here? Here I tell you, and you know it, too, Ahmad. You know it too devilish well."

"I do not know what the sahib means."

"Damn your black face!" Then Vilas tried to regain his self-control. We saw him struggling. The fight was inscribed on his face. And it was a hard fight, too—a losing fight. For a long moment he was quiet, and Ahmad Das resumed his furniture dusting. He bent lower and lower, and once more he was on his knees.

And now I didn't look at Vilas. My eyes were frozen upon Ahmad Das. His position, as far as externals were concerned, was one that every housekeeper gets in many times a day. But there was something different about this. There was a luxury, a passion, in the way he spread his long body on the floor. I

couldn't describe it except to say it was as if he felt a rapture in it. Nor was he calm any more. There was a strange nervousness upon him, like an intense eagerness, and his lips were drawn, over so slightly. He crawled about so slowly, his body so close to the floor.

Then Vilas spoke again in the silence—the words sharp and clear. My eyes flashed to him. He was leaning forward in his chair, every muscle set, every tendon rigid.

How to Play BRIDGE

Series 1928-29 by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr.

ARTICLE No. 26

How many times have you heard players say, after some bad play or bid that has cost a game or rubber, "The cards never forgive!" They seem to think that if they or their partner make a bad play or bid and lose that chance for game and rubber, they are sure to lose the rubber eventually. Nothing is further from the facts. Your opponents are just as apt to give you another chance by an equally bad play or bid and, even if they don't, your chances of winning are just the same.

The bad play or bid can have no effect on your mathematical chances of winning the rubber. Furthermore, it is very bad from the point of view of psychology to get on the line two years' mind that you are licked, that the cards never forgive! When you feel you are licked, you frequently are, and are certainly not so strong an opponent as you are when you feel in your bones that you are bound to win.

Here is an actual example the writer noticed the other night at one of the New York Card Clubs. A player who has the reputation of being very lucky had an easy play for game and rubber but dubbed it. His partner was a fighter and, instead of saying "The cards never forgive," said, "The cards never forgive." He was a good player, but his partner was a fighter and, instead of saying "The cards never forgive," said, "The cards never forgive." He was a good player, but his partner was a fighter and, instead of saying "The cards never forgive," said, "The cards never forgive."

You will soon find out that it doesn't pay to become discouraged just because your partner makes a mistake. On Lady Luck, once she decides to distribute her favors, does so without regard to merit. The action "The cards never forgive" must therefore be discarded.

There has been some discussion in recent articles as to business doubles—first, as to the type of hand that warrants a business double; second, the type of hand that justifies a take-out of a partner's business double.

The following hand illustrates these principles:

Hearts—9, 8, 7, 6, 2
A: A: B: Clubs—4
Diamonds—1, 7, 5, 3
Z: Z: Spades—10, 7, 3

No score, rubber game. Z dealt and bid one club. A bid one heart. Y bid one no trump and B passed. B's pass in this hand is very questionable. His proper bid undoubtedly is three hearts, to block further bidding, if possible, by Y. Z.

After B's pass, Z bid two clubs. A bid two hearts and Y and B passed. Z bid three clubs and A doubled. Y passed.

or redoubled, what should B do? Should he leave in his partner's double or should he bid three hearts? B certainly should bid three hearts. His hand can not take a trick at clubs and yet is very valuable at hearts. This take-out by B should be made irrespective of a redouble by Y.

A's hand was as follows:
Hearts—A, K, 10, 5, 4
Clubs—A, J, 10, 6
Diamonds—A, 6
Spades—9, 4

Should A have doubled three clubs with this hand? It looks safe enough to do so, but the bidding should indicate a weak hand and therefore should warn A not to double. A should consider which was the type of hand would Z be justified in doubling three clubs? He must hold at least seven to the King, Queen and probably no hearts; and he must hold the partner probably hold all the top cards in the other suits. If such is the case, A can expect to make only these clubs tricks and the ace of diamonds.

At most, he can hope to defeat the three club bid by one trick only. In club or heart, a double of three clubs can only hope to gain 50 points if it wins and will cost the rubber if it loses. The clubs are not so strong an opponent as you are when you feel in your bones that you are bound to win.

In the actual play, A doubled three clubs. Y redoubled and B passed. Y Z made these last three days. "Good God! There is every one!" he exploded at last. "Ahmad! Ahmad Das!"

The servant arose and came near him, half obscured in the shadows. He stood straight and tall.

"Yes, sahib—"

"Where is everybody? Southley and his son ought to be back by now. What direction have they gone?"

"I do not know, sahib. They told me they were going toward the cottages of the laborers. But I do not turn that way after they had gone out the door."

"And Miss Southley? She was to join me here."

"She has gone, too. I don't know where. The detectives are spending the day across the marsh—on the height."

"But it's time they were back by now. Good Lord, what did they go there for, when the trouble is here? Here I tell you, and you know it, too, Ahmad. You know it too devilish well."

"I do not know what the sahib means."

"Damn your black face!" Then Vilas tried to regain his self-control. We saw him struggling. The fight was inscribed on his face. And it was a hard fight, too—a losing fight. For a long moment he was quiet, and Ahmad Das resumed his furniture dusting. He bent lower and lower, and once more he was on his knees.

And now I didn't look at Vilas. My eyes were frozen upon Ahmad Das. His position, as far as externals were concerned, was one that every housekeeper gets in many times a day. But there was something different about this. There was a luxury, a passion, in the way he spread his long body on the floor. I

couldn't describe it except to say it was as if he felt a rapture in it. Nor was he calm any more. There was a strange nervousness upon him, like an intense eagerness, and his lips were drawn, over so slightly. He crawled about so slowly, his body so close to the floor.

Then Vilas spoke again in the silence—the words sharp and clear. My eyes flashed to him. He was leaning forward in his chair, every muscle set, every tendon rigid.

"Ahmad Das!" he commanded. "Go and get some candles."

"Of course, sahib," the Hindu answered from the floor. "They are all gone but these two. Every one, I cannot bring more."

"Then I'm going out to look for Southley."

"He will be hard to find, sahib. There are shadows and water and the jungle between." Then Ahmad's voice seemed to grow indistinguishably softer. "You will need a guide."

"A guide—what do you mean?"

"If the sahib goes, I will take him there. The sahib must not start out in the dark alone! And if the sahib has despaired of Miss Southley meeting him here, and wishes to go to his room, I will go thence with him, too."

Vilas Hayward suddenly snatched open the drawer in the table. For an instant his fingered hands thrust at its interior; then he whirled towards Ahmad.

"Where's my pistol?" he cried. "It was in the drawer."

Back Hurt Her So Had to Give Up Her Housework

Mrs. B. E. Thomas, Juniper Station, N.B., writes:—"I can truly say that Doan's Kidney Pills put me on my feet after a week of suffering with a lame back."

"My back hurt me so I could not sit up, and also hurt when I laid down on the bed. I got so bad I had to give up my housework and go to bed."

"I had rubbed on several kinds of liniment but got no relief."

"I got a box of Doan's Kidney Pills and started taking them and after I had taken four doses I began to feel I was getting some relief, and before I had finished the box my back was entirely better."

Price, 50 cents a box at all druggists or dealers, or mailed direct on receipt of price by The T. N. Millard Co., Ltd., Toronto, Ont.

Lucky Children Indeed, If Their Mothers Know and Serve SHREDDED WHEAT

With all the bran of the whole wheat

Children don't have to be coaxed to eat it—they like the crisp, crunchy shreds of baked whole wheat. They have to chew it—and that means sound teeth and good digestion.

on some wedding for which they never got a "thank you." He must say "the bride, who is so pretty (and who has been on the shelf for a decade) looked leveler still in a gown of . . . and slippers to match," and the natives giggle all over at this wise crack. Even the groom must be mentioned feelingly, although he may never have been twenty miles from St. Paul and is as dumb as an oyster.

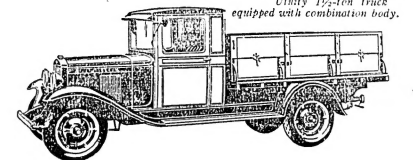

Another is "tributes" to the departed, who never in their long stay in Wetaskiwin Times now

St. Paul subscribed to the Journal, but swiped it at the hotel—some non-descript sayings, donations or benedictions. Next month we hope to have a subscription campaign: agent to interview at least the live ones in St. Paul and vicinity. You don't have to wait till the crop comes for two smackers. Come across. — St. Paul Journal.

The illustration shows the Utility 1 1/2-ton truck equipped with combination body.

The Six Does Better What the Four did Well

TO the well-known, Chevrolet qualities of stamina, dependability and economy, the new Chevrolet Truck adds the further advantages of smooth, six-cylinder operation . . . extra-rugged chassis construction . . . the superb speed and pulling power of a newly designed four-speed transmission . . . ball-bearing steering mechanism . . . new, four-wheel brakes that are sure and positive in action. Although it is a better truck, a sturdier truck, a truck that gives true six-cylinder performance . . . this new Chevrolet Utility Truck (with its 1 1/2-ton capacity) is still offered within the price-range of the four.

Ask for a complete performance and maintenance record of this amazing truck . . . and learn how it can save money for you. CT17-B-29C

Wishes to announce he will resume his classes in piano, violin, voice and theory on the First of September. Those wishing to enroll phone 49 or 267, Wetaskiwin.

THE CHANGING WORLD

At fifteen: "Let's go!"

At twenty: "Give me a chance and I'll show 'em."

At twenty-five: "It's all wrong—there must be a reform."

At thirty: "I'll live to see the dawn of a new day. In a few years the people will wake up and demand their rights."

At thirty-five: "I'd be rich if I stayed single."

At forty: "I'm sick of reformers."

At forty-five: "What is it?"

At fifty: "Thank God I've got a good bed."

At forty-five: "The human race is not worth saving."

At sixty: "I believed that once."

At sixty-five: "It won't work."

At seventy: "The world has changed a whole lot."

THE CRIME OF SLACKNESS

It is most distressing to read once more, as we so often are compelled to read about this time of year, that forest fires are raging in many sections of Canada, and that the loss of timber from this, its greatest enemy, is likely to be very heavy, heavier indeed than it has been for many years. The drought in many sections continued now for many weeks, has been one of the great contributing causes, but once more we are assured on the authority of government officials, that the carelessness of prospectors, campers and others is having its usual disastrous effect. Instead of a few great fires in distant centres, as is often the case, we are told that there are this year a multitude of smaller conflagrations which make the work of the fire-fighters still more difficult.

It is strange, after all that has been said about the tragedy and the needless loss of our great forests through forest fires, that there should still be so many people who seem utterly conscienceless touching the matter. It must be that all the preaching has had some effect, and one would think that by this time all intelligent people realized the danger and all right-minded people were willing to take the minimum of trouble needed to avoid it. What kind of people they are who are guilty in this matter it is somewhat difficult to imagine. That often they may not mean any harm furnishes nothing that might be called an excuse, for the slackness that refuses to take care, especially when others' interests are involved, is to be placed among the major crimes against society. And the crime in this case seems all the worse because the possibility of discovering and apprehending the guilty one is usually so hopeless.—The New Outlook.

Nervous Headaches Faint and Sick After Day's Work

Mrs. Geo. Mahoe, Tillsonburg, Ont., writes: "After my first child was born I was completely run down, and was cross and irritable all the time."

"After my second was born I was never without nervous headaches, and if I did a hard day's work I would be faint and sick, in fact, I got so bad we moved in with my husband's people so I would not be alone while he was at work."

"I was so nervous I was always afraid something terrible would happen."

"My mother-in-law strongly advised me to take

MILBURN'S HEART NERVE PILLS

and I can't express on paper the great relief I got. The very first box relieved me of those terrible, nervous headaches."

"I can now go to bed and sleep well, and in the morning I am ready for another day's work of any kind."

"I am the mother of four so you can see my hands are never idle."

Price, 50 cents a box at all druggists, or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

LACOMBE VOTES WATER FRANCHISE TO CALGARY POWER COMPANY, 100-10

Lacombe, August 10.—By a vote of 160 to 10 the ratepayers of Lacombe yesterday granted the Calgary Power Company a ten year's franchise for the supply of water to the town. The company will commence operations within ten days and will have the system in operation by October. The water supply will be obtained from deep drilled wells and the distribution will be by means of pressure tanks.

The agreement calls for the installation of 27 hydrants at various points in the town with a guaranteed fire pressure of 100 lbs. The bylaw empowering the town to install a sewer system submitted at the same time was also passed by the same vote. The installation of the water and sewer systems will be carried on together, both under the supervision of Calgary Power Company.

VERDUN—HAULTAIN U.F.A.

Another joint meeting of the Verdun and Haultain U.F.A. locals was held at Haultain School. During the summer a few of these combined meetings enables the members of the two adjoining districts to become better acquainted and valuable ideas and experiences are exchanged.

H. Benthin of Verdun was elected chairman pro tem. An interesting and instructive report from William Irvine, M.P., was read. The recent joint picnic was reported as successful. Delegates Messrs. W. O. Mountain, W. F. Elker, Mann and H. Benthin gave reports of the recent convention held at Lacombe. E. E. Sears gave an account of the convention at Lacombe. A resolution was unanimously passed instructing the secretaries to request that the main roads from Haultain and Verdun districts to Wetaskiwin be kept dragged. It was decided to hold another joint meeting the first part of September, at Verdun school, at which some able speakers will address the audience.

After adjournment, the Haultain ladies served lunch.

Here and There

(362)

Canada has one motor vehicle for every nine persons of population. A recent estimate places the aggregate number of motor vehicles in the Dominion at 1,076,219. Only three countries exceed Canada in heavier density of motor cars, namely, United States, Japan and Germany. For every 5.1 persons; Hawaiian Islands 7.9 persons, and New Zealand 8.0 persons.

The New England conscience got busy recently in a small town in Massachusetts, where a resident mailed back anonymously to the maître d'hôtel of the Royal York, Toronto, a package of spoons, serving utensils and a silver-plated Banff, four babies were born. Mothers and children are all healthy and well.

Last spring a man came into the C. P. R. ticket office on Sparks street, Ottawa, for a ticket to Montreal where he had a job. He was five cents shy on his fare, but the railway gave him a ticket anyway. The other day a man in overalls walked into the Sparks street office and said: "I owe you five cents on a ticket; here it is."

Hon. Chas. Stewart, Minister of the Interior, who has been firing over the Rocky Mountains recently, announced at Banff that the buffalo herd there will be augmented shortly by addition of animals specially selected from the herds at Wainwright and Elk Island.

Canadians are the world's greatest butter eaters. A recent compilation made by the Canadian Government Bureau of Statistics shows that the total consumption of butter in the Dominion last year was 230,000,000 pounds or a per capita consumption for the year of 29.31 pounds, an increase of nearly half a pound per head of population compared with 1927.

J. M. R. Fairbairn, chief engineer, Canadian Pacific Railway, and Dr. F. A. Gaby, chief engineer, Ontario Hydro-Electric Commission, have been selected as Canadian delegates to the Tokyo sectional session of the World's Power Conference to be held in Japan in October. They were nominated at a meeting of Canada's executive conference committee.

The steady increase in the use of electric power per capita in Canada is shown by a comparison of the figures for 1920 and 1927. During this period the amount of power used per 100 of population increased from 43 to 63 horse-power, or the use of power per inhabitant increased over 46 per cent.

As an indication of the increasing popularity of Nova Scotia as a tourist resort, the Lord Nelson Hotel, Halifax, on July 16 set three records for meal service with 245 persons sitting down to breakfast, 252 for luncheon and 270 for dinner.

An Easy Sale

Druggists: "This medicine will make an entirely different woman of you, madam."

Customer's Husband, "Take it Margaret—never mind the cost."

You would not be ashamed of your stationery if it had been printed at The Times office.

W. C. T. U.

In the recent prohibition on the prohibition law in P.E.I., while Charlottetown gave a majority of 215 and Summerside 22 against the act, their counties gave majorities for the act of 1614 and 1761 respectively.

The dry campaign is on in India. It is part of the Indian National Congress. A prohibition pledge is being placed before the electorate in which the elector further refuses to vote for or support any candidate who has not signed the pledge in support of total prohibition.

In British Columbia the evil of stocking up from government shops during the day and selling at double price during their closing, became so hard to overcome in some places that the government stores were kept open till midnight to head off the boot-legger.

"The United Churchman" says: "Quite an array of officers now patrol the Province (of N.B.). Under prohibition, not a hand was raised to rigidly enforce the law. Everyone knows that with any degree of the attempt to enforce prohibition now made under the present act the province would have become bone dry."

Canada is the only country of importance in the world where the drink bill is not decreasing. In British Columbia in 1925 the sales amounted to \$11,362,299. In 1927 the official sales were \$13,805,989. In Saskatchewan the sales grew from \$7,514,674 in 1926 to \$10,205,207 in 1927. In Alberta \$7,173,426 was the amount sold in 1924. In 1927 recorded sales amounted to \$12,109,849. Manitoba reports an increase in sales from \$5,524,440 in 1925 to \$8,473,696 in 1927. At the rate sales are being made in Ontario the first year of the system there will be a liquor bill in the neighborhood of \$50,000,000. While in Quebec the sales grew from \$50,961,941 to \$64,343,152 from 1925 to 1927.

Every fact available asserts that "Government Control" operates for the special benefit of the liquor traffic and its friends.

A SUCCESSFUL VACATION SCHOOL HELD LAST WEEK

The vacation school which was held at the First United Church last week was a gratifying success, and the thanks of the community are due to Mrs. Lasell, the Superintendent and her staff of assistants which comprised Mrs. Hall, Mrs. Duttman, Mrs. Mellett and Miss Edna Hall, for the matter in which it was conducted. The attendance reached from 29 the first day to 54 the fifth and closing day. The course of study included the stories of the Creation, homes for different creatures, the Birth of Christ, Jesus Boyhood, Jesus Blessing Little Children and the Artists Picture; Baby Moses and his Life, by Mrs. Lasell. Mrs. Duttman told the story of the lost sheep and Mrs. Hall told the story of Jesus feeding the five thousand, or the boy who shared his lunch with Jesus. At each of the sessions a recess was held when games were played.

At the last session, Mrs. Lasell thanked all parents for helping to make the school such a success, which was responded to by Mrs. Chalmers. Mr. Finch, the Superintendent, also gave a brief address. As an expression of appreciation of the work done by Mrs. Lasell, Helen Braglin, the youngest child in attendance, presented her with a lovely bouquet of flowers from the Nazareth Church, also spoke briefly. It was suggested that the vacation school next year be for a longer period and that all the churches in town get together and hold a united vacation school.

Try Chloroform

Pretty Nurse: "Every time I take the patient's pulse, it gets faster. What shall I do, Doctor?"

Doctor: "Blindfold him!"

WHEN YOU'RE IN A "HOLE"—THINK OF THIS

One bright day, so the story goes, when Aesop was taking a stroll, he passed a deep mudhole. From the bottom of the hole came a loud wail. Aesop stopped and looked down.

"Please, Mr. Aesop," croaked a big grass frog, "please help me get out of this awful hole." Mr. Aesop replied, "Help yourself out."

"But the pit is so deep and the slide so slippery that I can't do it," croaked Mr. Frog. Whereupon Mr. Aesop continued his walk, leaving Mr. Frog to his own resources.

About an hour later, as Aesop was returning, he saw the frog hopping along the road. So he stopped and said:

"Hey, wait a minute. Aren't you the fellow who was telling me a while ago that you couldn't possibly jump out of a hole? What happened?"

"Well," explained the frog, "you see it was this way—just after you left, my slinky rattlesnake crawled down into that hole and—well, I just had to jump out, so I did it."

CANADIAN NATIONAL HOTEL FOR SASKATOON

Above is shown a preliminary study of the new hotel which the Canadian National Railway will build in Saskatoon. It will have a minimum of 200 bedrooms as well as specially planned facilities for catering to banquets, conventions and dances. It will be thoroughly modern and fireproof throughout and its handsome design will make it a beautiful as well as useful addition to the most notable of the city's buildings. The architects are John S. Archibald, Montreal, one of Canada's greatest designers, and

John Schofield, architect of the Canadian National Railway, Montreal. Mr. Archibald and Mr. Schofield have collaborated on such outstanding buildings as the recent addition to the Chateau Laurier in Ottawa; the hotels of the Canadian National Railway now under construction at Halifax and Vancouver, as well as on a number of other buildings which are famous throughout the country for the charm of their design.

TOWN AND DISTRICT SUFFER FROM HAIL STORM

Cutting down grain in an area between 10,000 and 14,000 acres, a severe hailstorm swept over the territory starting 30 miles east of Calgary Saturday afternoon and stretching south an least about 36 miles. The widest point of the storm was estimated about six miles.

Reports of damage received in Calgary Sunday night showed that it varied from 10 per cent to 100 per cent, with approximately 5,000 acres on the Blackfoot reserve, in the Glendon area, being damaged 100 per cent. Insurance was carried on this grain.

NATURAL GAS OF TURNER VALLEY WILL BE TESTED

Ottawa, Aug. 12.—The possibility of utilizing the natural gas of the Turner Valley is to be investigated by Industrial Processes Development of Kingston.

A contract between the minister of the interior and this company has been entered into, the company will investigate the utilization of these gases for chemical productions which are merchantable or of industrial importance.

Essex the Challenger

the Reliability Car of the year

Essex the Challenger has outstandingly established itself as the Reliability car of the year.

How sweeping and convincing are its proofs! In the hands of more than 200,000 owners, the actual service records prove the lowest cost and smallest service requirements of any car we know.

Two Essex cars made the only perfect scores, in the famous international reliability classic, the Tour de France, winning against many far costlier cars of American and foreign make. And every American locality knows Essex the Challenger for some outstanding reliability record—in Arizona, 1343 miles in 24 hours; in Michigan, 1259 miles in 24 hours and in Kansas 1109 miles in 24 hours.

These are but the dramatic representation of the kind of reliability every Essex the Challenger owner knows. Under every condition of climate and road, in hard country usage as well as continuous city service, it has made itself known to its owners and through them to the world as "the Reliability Car of the year."

C.P.R. CROP REPORT

Winnipeg, Man. Aug. 12.—Where rain fell during the past week on the prairies, later filling grain and fodder crops were greatly benefited reports the General Agricultural agent of the Canadian Pacific Railway. Crops are rapidly ripening, too quickly in some districts for proper filling. Considerable rye and barley cutting has been done, and wheat in various districts, but it will not be general until the middle of the month. Wheat and coarse grains sown on summer fallow and new breaking are standing up surprisingly well and even in extremely dry districts will produce some yield. Grain on other lands has in a great many cases been ruined or is being cut for feed. Some hail damage took place in Saskatchewan and Alberta during the week, and although individual losses were severe, the aggregate was small when the total acreage under crop is taken into consideration. Rust infection is reported from scattered points mostly in Manitoba but with advanced development of grain, no appreciable amount of damage is likely on this score. Due to short stand of a great deal of the crop considerable damage will undoubtedly be done by farmers who possess combines. Domestic feed situation is causing some concern especially in southern Saskatchewan and Central Alberta, although indications are that there will be no shortage of winter ranges.

WORRIED OVER

PRINCE'S HEALTH

London, August 12. — The Daily News today says that it learns that the Royal Family is somewhat anxious about the health of Prince George, youngest son of the King. The prince left the navy because of his health and went into the foreign office. This was said not to have benefited him, but rather to have caused his present indisposition.

GREETINGS TO GOLFERS

May you drive as straight as the arrow flies
From the archer's hand thru the distant blue,
With a rhythmic swing that's a joy to see,
And a matchless, well-timed follow through.

May your masher seek the place you plan,
And the gripping turf hold it firm and true;
And your loamy iron sail in the face of the wind
With never a wobble to trouble you.

From the edge of the green, or the two foot space,
May the putt glide straight to the waiting hole.
And the clear, sweet click in the little cup
Bring thrills to the heart and joys to the soul.

Just a perfect stroke and a perfect round,
And the joy of the golfer the whole match through;
Just a blissful year with the greatest game,
This is his golfing wish to you.

And whether we'er find the perfect stroke,
Or the perfect round that we yearn to see,
There's the joy of the seeker the whole glad way
For expert, for dabb, for you, or for me.

BIG U.F.A. PICNIC AT NEW NORWAY

New Norway, Alta., Aug. 14.—The U.F.A. in this place held a popular picnic session this week and was favored by ideal weather. The outdoor sports and games were very attractive and later the meeting was addressed by J. Brown of Lougheed, a director of the U. F. A., who gave a very interesting address in which he stressed the value of the union to the farmers. Other speakers included Mrs. J. Zippers for the U. F. W. A. and Mrs. S. Warre of Athabasca.

MANY AT FUNERAL OF LEDUC FORMER MAYOR

Leduc, Aug. 13.—The funeral of E. C. Wells, one of the largest witnessed here in years, was held on Wednesday afternoon from St. David's United church to Leduc cemetery. The church services were conducted by Rev. F. G. McPherson and at the graveside the Masonic burial service was in charge of Wor. Bro. Edwards, assisted by the brethren of the local lodge. Deceased was born in Benton county, Oregon, 63 years ago, where he resided until coming to Leduc in 1897.

Abolition of the speed limit everywhere in England for automobiles and motorcycles with pneumatic tires was advocated by the Royal Commission of Transport in its first report on traffic conditions, which said legislation for general traffic control is long overdue. The commission would restrict motor-buses and coaches to 35 miles an hour. Drastic penalties, including jail terms, would be imposed for reckless driving.

WINTER SHELTER FOR FALL PIGS

(Experimental Farms Note)

As the result of experiments it has been found that there is little difference between inside and outside shelters for fall pigs. Expensive buildings are not absolutely necessary, therefore uneconomical. Ordinary cabins well covered with straw, or a straw pile will be found quite satisfactory. To obtain best results with fall pigs the sows should have access to pasture, preferably late sown oats. Rape and fall rye sown towards the latter end of June make excellent pasture for young pigs at weaning time.

Experimental evidence at Indian Head also indicates that August and September are the best months to have fall pigs farrowed, therefore, it is important in the production of two litters per year to plan matings accordingly. To insure best results the spring litters should be farrowed in March or early in April to permit the breeding of sows for early fall farrowing. During the fall and winter of 1928-29, twenty-one pigs were divided equally into three lots. Seven were retained in a comfortable piggery, seven were wintered in straw-covered cabins outside, and the remaining seven were placed in a run with a straw pile for shelter. These pigs were fed the same rations throughout the one hundred and eighteen days on trial. At the conclusion of the trial the lot in the piggery had made an average gain of 1.0 pounds per day. The lot in the straw-covered cabins made an average gain of .3 pounds per day, and the lot allowed to run at the straw pile showed an average gain of 1.05 pounds per day.

It is obvious from the results at Indian Head, which cover a period of years, that fall litters (August and September) can be housed and fed quite economically in outside shelters. The main consideration is to keep sleeping quarters clean, dry, well bedded and free from unnecessary draughts.

W. N. Gibson, Supt.
Dominion Experimental Farm,
Indian Head, Sask.

TAKING THE CROP WITHOUT THE BEE'S KNOWLEDGE

(Experimental Farms Note)
The new method of taking off the crop, now developed by the bee-keepers, disorganizes a hive at little as possible, this obviates robbing and will not interrupt the bees in their work; furthermore, it makes the work of removing the crop a great deal more pleasant because if carefully done, the bees need not be greatly disturbed.

This method is by using escape boards. These boards consist of wooden frames that just fit on top of a super or hive body. At two opposite corners on this framework are inserted bee escapes. These bee escapes allow the bees to pass through but, owing to the construction of the escape, they cannot return. The remainder of the escape board should be wire screening. Some beekeepers use a honey board with a single bee escape in the centre, in fact there are various types of escape boards though they all work on the principle of the one described.

The escape boards are placed on the hives, below the lowest super that it is desired to remove. Care must be taken that there be no brood in the supers placed above an escape. The bees will not leave brood. Care must also be taken that there are no chinks or holes in the supers above an escape for, as the bees leave through the escapes, the supers become unprotected and robbing may start. An empty super or half super is generally given when the escape is put on as the hive will become too crowded.

Only ripe honey should be put above an escape. Unfinished combs should be left below to be finished off by the bees.

If the weather is bright and the bees are active it should be possible to take off the supers within twenty-four or forty-eight hours after putting on the escapes, and find no bees in them.

CANADIAN OAT KING VISITOR AT CAMROSE

Nels Linden, of Wetaskiwin, who occupies the same position in oat growing circles as Herman Treile does as premier wheat grower of the continent, was a business visitor in Camrose on Friday of last week. Mr. Linden who is a director of the Canadian Seed Growers' association, specializing in the growing of pure Banner oats and has won several championships at the international fair at Chicago, the national exhibition at Toronto, as well as at other places.—Canadian.

Fine quality cotton, made to unfold the size of a quilt. 3 lb. size.

Plain **\$1.45**
Quilted **\$1.65**
All Wool Bats **\$2.95**

TWO BOYS DROWN IN CAMROSE POND

Camrose, Aug. 10.—Two boys, Nels Clausen of Daysland, and Teddy Reel of Camrose, aged 10, were drowned in the C.P.R. dam at Camrose on Friday afternoon. It appears the two boys were on a flat-bottomed boat which was reeling at the C.P.R. pump-house, was only about 75 feet away from the scene of the disaster, being in the pump-house, but was not notified of the accident until the boys were going down for the last time. He plunged into the water, but owing to the quantity of debris, etc., around, was unable to reach them by swimming and was forced to give up. He then went to a nearby house and phoned for assistance.

Ralph McPaul of Wetaskiwin, who is relieving at the C.P.R. pump-house, was only about 75 feet away from the scene of the disaster, being in the pump-house, but was not notified of the accident until the boys were going down for the last time. He plunged into the water, but owing to the quantity of debris, etc., around, was unable to reach them by swimming and was forced to give up. He then went to a nearby house and phoned for assistance.

A girl may be both pretty and ignorant, but she is never ignorant of the fact that she is pretty.

Mackie: "Eh, Jock! Money talks ye ken, as the auld sayn' is."
MacGregor: "Ay, but it never gives itself awa!"

HOW ONE WOMAN LOST 28 LBS. OF FAT

This headline is exactly true and means just what it says. Read her own letter: "I take a daily dose of Kruschen and I have lost two inches round the waist and hips and 28 lbs. since last summer. I feel very well on it, and people tell me I look very fit. I am 5 ft. 4 ins. in height, 40 years old, and come of a stout family."
Miss E. L.
If you are fat, first remove the cause. When your liver, kidneys and bowels can't throw off that poisonous waste material which is always accumulating in your body—before you realize it you are growing hideously fat. Take Kruschen Salts in a glass of hot water every morning. In three weeks' time, get on the scales and note how many pounds of fat have vanished. Notice also how you have gained in energy and health. Your skin is clearer, your eyes sparkle with glorious health. You feel younger in body, keener in mind. Kruschen will give many fat people a joyous surprise.

Pillows Towels

Feather filled and covered with a strong quality art ticking in fancy patterns. Size 18x26. Each **\$1.35**

Dark stripe pattern. Size 17x34. Per pair **45c**
Heavier quality in bright patterns. Size 18x10. Excellent value **65c**

Drapery Chintz

Large range of new patterns and colors in our regular drapery chintz. This is the best value on the market, and is usually sold at a much higher price. 36 in. wide. Per yard **25c**

TABLE COVERINGS—Printed back oil cloth, in a neat clean blue check pattern. 54 in. wide. Per yard **45c**
Also plain white in 45 and 54 in. widths.

PILLOW COTTON—Extra fine quality circular cotton tubing. This is a much superior quality to the kind usually sold. 40 inches wide. Per yard **55c**
42 inches wide Per yard **60c**

Men's Needs

KHAKI PANTS—Heavy quality, in a fine weave. Exceedingly well tailored with belt loops side, hip and watch pockets of good heavy canvas. Bottoms finished with cuffs. Per pair **\$3.00**

WORK SHIRTS, Cotton tweed, in either grey or khaki shade. Extra large sizes and well made throughout. Each **\$1.25**
WORK SOCKS—Good range from which to choose and moderately priced.

THE BEST TRADITIONS SHOULD BE UPHELD!

Early Albertans saw the foundation of five modern Breweries that soon grew famous and still dispense the cheer that made them the pride of the Province. From the time of the Indians until now Albertans have enjoyed these healthful beverages

PROVINCIAL LEGISLATIVE AND SOCIAL AMENDMENTS

Following the annual conventions of the U.F.A. and U.F.W.A., the resolutions dealing with matters of provincial jurisdiction were submitted to the Alberta Government by the committees concerned. Below is a synopsis of the requests, replies and comments of the ministers in charge of the departments concerned, in respect to 34 resolutions. It is summarized by the Albertan from a report in the "U.F.A." The resolutions are numbered and the replies thereto appear directly beneath each.

1. Medical Inspection in Schools—Requesting the same facilities to rural children as are enjoyed by towns and cities.

New School Bill contains a clause empowering divisional boards to safeguard the health of the pupils by employing doctors, dentists and nurses. Free medical inspection of all children attending school, and also pre-school age to be provided.

2. See reply to No. 1 resolution.

3. Return of examination papers—asking the Department of Education

to return to pupils papers of the subjects in which they have failed.

Practice not permitted in any province in Canada; every precaution being taken to mark the papers fairly. A candidate, may on appeal within twenty days, of the announcement of the results, have any paper re-read; the papers being kept by the Department for one year.

4. Examination Fees—Asking the Department of Education to change its policy in regard to charging fees for examination in high schools.

There is no net revenue from examinations, as the cost is still in excess of the fees. Government will give question further consideration.

5. Lower Fees For High School Students—Resolution requesting the Minister of Education to take steps to place fees for the examination of students in high schools.

See resolution to No. 3 above.

6. Languages Optional for B. A. Degree—In the course leading through high school and university to Bachelor of Arts degree, study of languages be optional.

No language other than English is required for high school graduation or normal school entrance. Matriculation standards now fixed so that B.A. degree may be obtained with one language, other than English. This need not be Latin.

Danger Signs

7. Danger Signs—Danger signs be installed warning traffic to slow up in the vicinity of schools, and that a penalty be imposed on those ignoring warning.

On July 4 the U.F.A. Central Board referred back resolution No. 7 to the Minister of Public Works with the endorsement of the board.

8. Danger Zone Signals—Asking that danger signs be made on all roads entering vicinity of school area. "Danger" school. Speed limit 15 miles an hour.

With reference to No. 8 the central board on July 4 passed the following resolution: "Resolved, that all signs other than railway signs be prohibited within half-mile radius of schools."

9. Proposed New School Act—Resolution dealing with proposed changes in rural school system of province, that with regard to raising of funds they be grouped into one district, having a flat mill rate on assessed valuation and one salary schedule for teachers.

The School Bill as presented at the last session followed the lines approved in the resolution.

10. High School Curriculum—Asking that high school curriculum be reduced.

Question of lightening the high school course has been referred to the committee, which will report before end of summer.

11. Increased Outlay for Bridges—Asking the government to increase largely the grant for bridges in municipalities where the need exists.

Annual program during past few years has called for construction of 40 steel bridges, and about 400 timber bridges constructed or reconstructed. About 600 bridges are dealt with every year. Future policy and expenditure will be determined by needs.

Weed Control

12. Weed Control—Urging the government to inaugurate a system of weed control, by either (1) weeding as laid down under Noxious Weeds Act, or (2) sterilization of the ground by chemicals.

Extensive experiments are under way at present time, with chemicals, for the purpose of sterilizing the earthworks of irrigation ditches.

13. Sow Thistle—Resolved, that the convention is desirous of giving full co-operation to the government in connection with the total eradication of the Perennial Sow Thistle.

Department appreciates splendid offer of assistance and co-operation from the U.F.A. organization.

14. Trapping Season for Muskrats—To prevent depletion, a shorter season of one month, from April 1 to April 30. Provincial government asked to make a thorough investigation into the Game Act, with a view to a general improvement of the same.

The first part of the resolution will be given consideration before a policy is adopted for next season. Respecting supervision of fur buyers, provincial government have been asked to make careful inspection of all fur buyers' returns and report to Department of Agriculture, any infringement of this act.

15. Noxious Weeds—Indication is that certain noxious weeds are being brought in this country, through the medium of settlers' effects and empty box cars. The Dominion and Provincial governments asked to take steps

Royal Yeast Cakes

to prevent this menace by inspection at loading points and destinations.

Section 134 of act provides that no persons shall move settlers' effects and machinery, if same has noxious weeds adhering to it. Do not see it is possible to improve present system.

Situation Corrected

16. Threshers' Licenses—Alberta Provincial Police and weed inspectors are unable to carry out their duties in regard to threshers' licenses because there is delay in the issuing of licenses. Licenses should be issued by local justices of the peace, members of the A.P.P. or municipal secretaries.

Situation was corrected as soon as extra help was employed. Previous to that the department was understaffed.

17. Bounty on Crows or Magpies—It is believed that crows and magpies are doing harm by destroying prairie crops. A provincial bounty be placed on crows and magpies.

Prizes are offered by the Department of Agriculture to the members of Rod and Gun Clubs to individuals and schools, who destroy the greatest number of crows and magpies. Crops often now running for five years. It is estimated that 400,000 crows and magpies have been exterminated during this period. Note:—The U.F.A. Central Board recommended to the Provincial Government "that a small bounty be paid on crows and magpies."

18. Supplementary Revenue Tax—It was recommended to tax commission that the supplementary revenue tax be repealed, and a tax on improvements was suggested. The supplementary revenue tax is considered a fairer one and should not be repealed, and towns and villages should collect their share of the general revenue on the same basis.

In answer to the first it may be said that the supplementary revenue tax is not repealed, nor is it contemplated that it should be. With regard to the second phase, that towns and villages should collect their share of the revenue, under the Alberta Assessment Commission Act, it is intended that some equalization shall be accomplished, and in doing so it may be necessary to depart from the principle of the urban municipalities. General effect is to bring about a greater degree of equalization than now exists.

19. High School Laboratories—Whereas the number of accidents in high school laboratories is becoming serious; regulations for the proper protection of students should be more strictly enforced.

Teachers will be instructed to use every precaution to prevent accidents in school laboratories.

Road Building

20. Provincial Government's Road Building Policy—Endorsing the road building policy of the Provincial Government in carrying out an adequate road building program to be paid out of current taxation and revenues rather than large sums borrowed for that purpose.

There appears to be some misunderstanding. All our main highway program is built with the aid of borrowed money. In addition to this, in 1929 there was appropriated \$650,000 of capital or borrowed money for grants to municipalities for development of district and second highways. In addition, there is each year expended from capital \$600,000 on construction of bridges. So it can be seen the greater part of annual highways and bridges outlay is made from borrowed capital.

21. Power to Regulate Traffic—Municipal councils be given full power to regulate traffic within their boundaries at all seasons of the year.

It is quite obvious that full power to regulate traffic on roads within a municipality would be impossible on account of the uniformity of regulations throughout the province. Some phases might, however, be considered, and the Government will be glad to consider specific suggestions as the municipalities may wish to offer.

22. Amendment Municipal Act.—In the belief that the government is considering bringing in a bill to amend the Municipal Act, so that farm buildings will be assessed for taxation as improvements, resolution in Opposition passed.

It is not contemplated that farm buildings will be assessed for taxation purposes.

23. Public Health Clinics—The continuance of the clinic, and the winding of its scope.

It was made clear before the advisory committee that there was no intention of discontinuing the travelling clinic, but if the Medical Council desired to improve this service, the Department would be glad to co-operate.

Chiropractors—Since chiropractors have to go before a board composed mainly of medical men before they can practice in Alberta, and since no licenses have been issued since 1924, this restriction be removed.

When present Act was passed it was considered fundamental that a knowledge of the basic sciences on which any form of treatment should be based was considered necessary. I understand that those who sat for examinations in previous years failed because they were unable to meet the requirements of the Board of Examiners insofar as the basic sciences were considered.

25. Psychopathic Hospitals—Urging the Government to provide psychopathic hospitals equipped to give effective treatment to mental disorders. Government have had this question under consideration for the last year, and have now made arrangements for one floor of the new addition to the University Hospital being properly equipped and set aside for this purpose.

26. Health Units—Urging most strongly upon the rural municipalities the necessity of establishing full-time health units throughout the province of Alberta.

By an amendment to the Public Health Act, passed at the last session, the necessary authority was obtained for the establishment of full-time units.

27. Good Will Day.—Referring to resolution at World Federation of Education Workers, that May 18 be set aside as International Good Will Day, requesting that the Minister of Education authorize the annual observance of this day in the public and high schools of Alberta.

The government is prepared to proclaim May 18, World Good Will Day.

No Plural Voting

28. One Man, One Vote—Section 135 of the Municipal District Act, provides that the name of every person registered on the voters' list is entitled to vote. The right to more than one vote in the municipal election should be forbidden.

This has been taken care of by the amendment to the Municipal District Act.

29. Stock Companies.—A stock company, holding a Dominion charter, can sell stock in Alberta without first complying with the provincial regulation, therefore the Provincial Government should take steps to force all stock companies selling shares in Alberta to be passed by the Alberta Utilities Board or some other provincial agency.

It is hoped that under the Securities Frauds Prevention Act the conditions complained of will be satisfactorily dealt with.

Interchange of Teachers

30. Dominion Educational System.—The Departments of Education in the different provinces should co-ordinate and make possible a system of interchange of teachers without examination.

Difficulties of attempting to make a uniform course of study which would be satisfactory to all, are practically impossible.

31.—Red Ink on Ballots.—Resolved that Section 217 of the Municipal District Act should be amended to provide that names of candidates be printed or written in ink of the same color.

Effect has been given to this in legislation by amendment to the Municipal District Act, last session.

32. Telephones in Schools.—Requesting the Dominion Weather Bureau to phone in advance so that people may be prepared for blizzards, and Provincial Government require school trustees to install phones in schools.

It is possible to place phones in these schools providing construction conforms to cost limitation laid down for rural subscribers.

33. Meteorological Reports.—The Provincial Governments be asked to provide weather reports daily to the central telephone offices which would be available to subscribers.

The passing of this information daily through telephone exchanges would impose too great a task, and would seriously interfere with both

always extra crisp and oven fresh

The patented waxtite inner-sealed wrapper protects the goodness of Kellogg's Corn Flakes even after you open the package. Keeps the flakes crunchy-crisp and delicious. Another reason for always saying "Kellogg's" when you order corn flakes!

Kellogg's Corn Flakes are delicious for lunch and dinner too. So crisp and refreshing. Serve with cool milk or cream. Give them to the children for supper. Insist on Kellogg's—the original Corn Flakes. Always oven-fresh. Always extra crisp. Sold by all grocers. Served by hotels, cafeterias—on diners. Made by Kellogg in London, Ontario.

Kellogg's CORN FLAKES

local operating and traffic on the toll lines.

34. The Legislature be asked to change the Municipal Act, so that where an assessed elector is living on rented land in the same division, his wife, sons and daughters shall have the same right to vote as though he were actually living on his own assessed land.

There is considerable opposition to this proposed change in the Municipal Association. It will be discussed with them further, when the whole matter will be given consideration.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lightfoot, Milford, Ont., writes: "I became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach. I purchased a bottle of

and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since. I cannot realize 'The Extract' too highly and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowler's" has been on the market for the past 84 years; you don't experiment when you buy it. Price, 50 cents a bottle at all dealers; put up only by The T. Milburn Co. Ltd., Toronto, Ont.

THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorses its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word genuine printed in red.

The Sportsman's Paradise
PROTECT IT AGAINST
FIRE

Green forests ensure an even flow of clear running water; burned timber means muddy torrents in flood time and stagnant pools in dry weather.

The good sportsman, in his own interest, is careful with fire in the woods.

HELP SAVE YOUR FORESTS

Issued by authority of
Charles Stewart,
Minister of the Interior.

WHAT HAPPENS?

The need for and value of a properly staffed health department with an adequate budget have been referred to on many occasions. It has also been pointed out that, through the organization of county or rural health units, the whole Dominion could secure the same high type of health service as now provided for the residents of the larger cities.

Just what this means is clearly shown by the experience of the City of Toronto in tuberculosis. In the year 1918, out of every 100,000 persons in that city, over 100 died of tuberculosis, whereas in 1928, the number was 54. In other words, the actual number of deaths in 1928 was but half of what it would have been if the same conditions as existed ten years previously had existed. This represents the avoiding of approximately 300 deaths in a single year from one disease.

Results such as this can be secured all over Canada. They are not arrived at by chance, but are the direct result of a tremendous effort, carried along on proper lines and consistently maintained year after year. Such results represent the expenditure of a considerable sum of money. This actual expenditure, however, is considerably less than it would have been necessary to spend on the care of cases in attempting to cure them if their occurrence had not been prevented. Add to the cost of sickness, the value of human life, the broken

homes, the children left fatherless or motherless, and it is plain to be seen that the investment in health work pays a real dividend in money and human happiness.

These communities which have not as yet a proper health department, those rural areas which are not as yet being served by full-time health units, should ask themselves if they can afford to miss what others now enjoy. Each individual should remember that personal and family protection against disease rests largely upon living under the supervision of an efficient health department.

Questions, concerning health, addressed to the Canadian Medical Association, 184, College Street, Toronto, will be answered personally by letter.

OPPORTUNITY

With doubt and dismay you are smitten.
You think there's no chance for you, Son;

Why the best books haven't been written,
The best race hasn't been run,
The best song hasn't been sung,
The best time hasn't been played yet,
Cheer up, for the World is young.

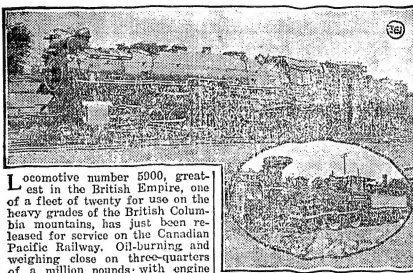

No chance! Why the World is just eager
For things that you ought to create;
Its store of true wealth is still meagre,
Its needs are incessant and great;
It yearns for more power and beauty,
More laughter and love and romance,
More loyalty, labor and duty.

No chance? Why there's nothing
But chance.
For the best verse hasn't been rhymed yet,
The best house hasn't been planned,
The highest peak hasn't been climbed yet,
The mightiest rivers aren't spanned;

Don't worry and fret faint-hearted,
The chances have just begun;
For the best jobs haven't been started
The best work hasn't been done.

AFTER ALL
There's Nothing
To Equal
Zam-Buk
FOR THE SKIN!

Fifty Years of Progress

Locomotive number 5000, greatest in the British Empire, one of a fleet of twenty for use on the heavy grades of the British Columbia mountains, has just been released for service on the Canadian Pacific Railway. Oil-burning and weighing close on three-quarters of a million pounds with engine and tender and having a length of 38 feet over all, it furnishes an overwhelming contrast with the wood-burning "Countess of Dufferin" which came to Winnipeg from Minneapolis, fifty-two years ago next October.

Tractive effort of the Countess was 9,000 lbs., as compared with

that of 78,000 lbs. of the 5000. The latter represents the latest developments in locomotive engineering and was built to specifications furnished by the motive power and rolling stock department of the Canadian Pacific Railway.

MILLET LOCAL NEWS

Miss Marion Graham of Edmonton, spent the week-end at her home here.

Mrs. Graham was the guest of Mrs. Mitchell in camp at Pigeon Lake for the past week.

Pigeon Lake is one of the lakes that is favored with a long stretch of ideal beach and good clean water.

The services on the United Church Millet circuit, were taken by Rev. McCrae of Edmonton, last Sunday.

Mr. and Mrs. Beay and Misses Phyllis and Joan, returned on Friday from a trip to Banff and Lake Louise.

Mr. J. R. K. Graham made a trip to Red Deer and Sylvan Lake on Wednesday and Thursday of last week.

Mr. Day, in the employ of Mr. G. Ferguson, has been suffering with an attack of quinsy. He is recovering.

Miss Clara Grapentine went to the Wetaskiwin hospital on Monday, where she will undergo an operation.

Dr. and Mrs. Simpson returned on Friday, after spending a few days visiting friends at Lacombe and Gull Lake.

Miss Esther Rupert returned to Edmonton on Monday, after spending a couple of weeks holidaying at her home here.

Mr. Melvin Hope returned on Friday from a trip through the Peace River country. He says that Millet looks good yet.

Rev. Young, pastor of the Cushing Memorial Church, Calgary, will conduct the services in the United Church next Sunday evening.

Mr. W. L. Campbell, Miss Jean and Master Gordon, were guests of Mr. J. R. K. Graham on Monday, on their return from Gull Lake camp.

Mrs. S. I. Groves and baby son, of Edmonton, was visiting relatives in and around Millet last week, and spent a few days with Mrs. W. E. Wood.

Miss Phyllis Kent of Wainwright, is spending part of her vacation at the guest of Mrs. Wood of Larchtree, and Mrs. Martin Moen of Millet.

Mr. and Mrs. John W. West and Mr. and Mrs. Eric Shale and family, and Mrs. A. Rupert, were guests of Mr. and Mrs. C. S. Moen in camp at Pigeon Lake on Sunday.

Word was received by Mr. Zelmer and family on Thursday, of the death of his son, William, at Tacoma, Washington. Death was the result of an accident caused in the place where he was employed. He was 30 years of age and leaves a wife and little daughter. Mr. John Zelmer left on Friday as conductor on the Pacific railway at Tacoma. The sympathy of the entire community is extended to Mr. Zelmer and family in this sad bereavement.

A trip to Pigeon Lake a few days ago by the Millet Press scribe, revealed the fact that this is a favored district as far as crops are concerned. The wheat crops are looking fine, good strong stands and every appearance of a good yield, and with some heavy crops of barley in evidence, is a good indication of practical farming assisted by good quality of soil. Much clearing of land and breaking is being done, and several new quarter section farms are being opened up. The roads generally are in good condition and preparations for several miles of grading near the lake are being made.

ANNOUNCEMENT

Mr. and Mrs. C. Moen of Millet, announce the engagement of their youngest daughter, Gena Christina, to Chas. Henderson Harvey, oldest son of Mr. and Mrs. F. E. Harvey of Calgary, Alta., the marriage to take place the latter part of August.

When you wake up at dawn and can't go back to sleep again, it's a sure sign that it's a holiday.

RHEUMATISM

Warm the liniment, spread it on brown paper and cover the affected parts. It cures pain, relieves stiffness.

The family medicine chest.

MINARD'S
"KING OF PAIN"
LINIMENT

THINK IT OVER!

It is not the revolution that destroys the machine, but the friction. It is not work that kills men; it is worry. Work is healthy; you can hardly put more upon a man than he can bear. Worry is rust upon the blade.—Henry Ward Beecher.

Here and There

Locomotive Number 5000, one of a fleet of twenty monster oil-burning engines for use by the Canadian Pacific Railway on passengers and freight service in the mountains of British Columbia, has been released from the Montreal Locomotive Works and was on display in the Windsor Street Station, Montreal, recently. It was viewed by a constant stream of spectators all day, who admired its 98 feet of length, its huge proportions and its generally handsome appearance. This locomotive is the greatest in the British Empire.

The total number of dairy factories in operation last year in Canada was 2,385, comprising 1,265 creameries, 1,303 cheese factories, 200 combined butter and cheese factories, and 29 condensaries.

The Royal York Hotel, Toronto, was a blaze of color at the recent rose show held there in July. The blooms ranged from the pure white of large dimensions and the smaller varieties to the vivid red of American Beauties and others. The ball room of the Royal York was filled with them in the Ontario Rose Society show. The display gave birth to the project of having the most beautiful rose garden in the world laid out on the Canadian-American border and a committee was appointed to consider the plan and to settle final details at a meeting at the Royal York next month.

Announcement has been made that Americans and Canadians will join in travelling to the World's Forty Congress to be held in England in 1930. Delegates will meet at Montreal and will travel via St. Lawrence route overseas. It is expected that nearly 10,000 delegates will make the trip.

Canada's wool crop, like the grain harvest, moves across the country in a great wave, not being a simultaneous operation in all provinces. It begins in the sheltered valleys of British Columbia and moves steadily across the Prairies. The shearing is at its height early in the fall and is about completed by the end of that month. The crop ranges from 15 to 24 million lbs. yearly and is marketed largely through the Canadian Co-operative Wool Growers.

Canadian Pacific farm sheep swept the board at the Edmonton show recently with three champions including the six year Suffolk ram and ewe. Other wins including nineteen first were credited to the Experimental Farm at Strathmore, operated by the Canadian Pacific Railway.

Two employees who have together completed over one hundred years in C. P. R. service were complimented by E. W. Beatty, chairman and president of the company during his recent tour through the Maritime Provinces. They were Charles Henderson, who acted as conductor on the president's special and who started railway work in 1876, and Harry Saunders, an engineer of the special, who has been in the company's service for 43 years.

DIGESTIVE ORGANS Completely Poisoned By Bad Teeth

Mrs. W. H. Lambert, Lambertville, N.B., writes: "I must say that B.B.B. saved my life. My trouble was indigestion caused by bad teeth. My digestive organs were completely poisoned, as well as my whole system. I had the teeth extracted, but the trouble was still left. Having read what

BURDOCK'S BLOOD PURIFIER

had done for others I decided to try it and the result was amazing. I cannot praise it too highly."

MILLET ALBERTA

MILLET LOCAL NEWS

Mr. Clifford Reading of Saskatoon, has taken a position on the Imperial Bank staff.

Mrs. S. Rogers and son of Calgary, spent the week-end with Mr. and Mrs. H. E. Harkness.

Mrs. F. H. Nichols and son Arthur, who took part in the Wetaskiwin athletic sports, is visiting with Miss Mabel Thompson.

Miss Edna Thompson of Calgary, who took part in the Wetaskiwin athletic sports, is visiting with Miss Mabel Thompson.

Mr. and Mrs. Joe Fish and family, and Mr. Uwe Yoxel of Calgary, are visiting at the home of their aunt and uncle, Mr. and Mrs. V. Thompson.

Mr. De Forest Nelson of Athabasca, has been engaged as principal of the Millet school for the next term. Miss Ida A. Lauger of Edmonton, will take the intermediate classes, and Miss Leila M. Foster of Port Saskatchewan, will have the primary room.

HILLSIDE

Wheat cutting commenced in the district this week.

Mr. and Mrs. H. G. Young and daughters returned from their motor trip to Waterton Lakes and Banff.

Mr. King, R.O.P. dairy tester, is in the district this week.

Kenneth Swartz was successful in passing his Grade X examinations. This makes the fourth Hillside student who has passed the recent examinations.

Mr. and Mrs. L. E. Marr and family were Sunday visitors to Fort Saskatchewan, the guests of Mr. and Mrs. W. J. Foster.

Earle Pritchard returned to his home in Edmonton Sunday, having spent the last three weeks with his cousin, R. M. Hoskins.

Mr. and Mrs. W. H. Webb were Edmonton visitors on Monday.

Owing to the Pastor, Rev. MacDonald, taking his holidays, there will not be any church service till the first Sunday in September.

The Junior U.F.A. are meeting at the home of Mrs. H. Young on Friday, the 16th. The roll call will be 'Spices'.

Mr. and Mrs. W. E. Pritchard and family of Edmonton, were Sunday visitors at the home of Mr. and Mrs. E. R. Hoskins.

SIXTY-SIX PER CENT WHEAT ESTIMATES IMPROVES OUTLOOK

Ottawa, Aug. 12.—Although the crop report issued Saturday by the Dominion bureau of statistics gives no estimate of the wheat crop in bushels, the forecast that it will be 66 per cent of the 10 year's average is rather more encouraging than recent estimates. Last year on August 1 the estimate was 107 per cent of the average yield.

On the prairie provinces this resulted in a yield from 23,155,305 acres of \$1,444,000 bushels. This year with the average 24,297,116, and a percentage of 66, people are calculating 330,000,000 bushels as the result of Saturday's report.

An optimist is a man who accepts the auto salesman's statement that she'll do eighteen miles to the gallon, and starts on a seventy-five mile trip with five gallons of gas and no money.

Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians lead the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is expelled; all sourness is soon gone; the whole system is renewed. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, prescriptive product.

PHILLIPS Milk of Magnesia

HILLSIDE

(Intended for last week)

Miss Leila Marr was successful in passing her Grade XI examinations.

There was a good turnout of members and visitors at the home of Mrs. T. H. Howes on Thursday last, when the U.F.W.A. held their August meeting.

The Millet U.F.W.A. were the guests of Hillside local, and a number of "Old Timers" who were present gave some of their experiences of early days.

Mrs. Ross, director for the Wetaskiwin constituency, addressed the gathering, and Mrs. Price, convener of Immigration, gave an interesting talk on her work.

Miss Margaret MacDonald of Millet, has been engaged to teach the Hillside school.

Mrs. Pritchard and Mrs. Hoskins were weekend visitors to Edmonton.

A number from the district attended the Alberta Track and Field Championships at Wetaskiwin on Wednesday.

Ronald Hoskins was successful in passing his Grade VIII examinations.

The U.F.A. are holding their regular monthly meeting at the home of Mr. and Mrs. Heslop of West Liberty, on Friday evening, August 9th.

WEISENFORD W.I.

The regular monthly meeting of the Weisenford W.I. was held at Mrs. Burdon's on August 1st, with eight members present, one new member joining, and several visitors.

The meeting was opened by singing "O Canada," and reading the Creed. The roll call was answered by each member giving their favorite recipe for salad.

Several business letters were read by the secretary, and discussed by the members. The report of the picnic made by the credit of the W.I. funds.

It was decided to hold a dance in Telford school August 9th.

To conclude the meeting, Mrs. Scott read several comic jokes, which provoked a good laugh. Then a delicious luncheon was served by the hostess, Mrs. Burdon. The next meeting is to be held on Sept. 6th, at Mrs. Geo. Beach's.

MULHURST NEWS

(Intended for last week)

The Millet basketball team brought their "merry-go-round" out to the Lake on Sunday and took the Mulhurst team for a ride to the tune of 22 to 4, to the amusement of many spectators. The Buford team then took Millet for a ride and were winners to the tune of 21 to 13. The Buford basketball girls also were winners over the Pigeon Lake girls with a score of 11-4.

Mr. Ritchie and family of Edmonton are occupying one of the Oulmette cottages.

Mr. Fred Dowler and family of Calgary, have opened their cottage for the rest of the holidays.

Mr. and Mrs. Wasmuth of Edmonton, spent the weekend at the lake as per usual. They reported a good catch of fish.

Among those who attended the Camrose Exhibition on Saturday were Mr. and Mrs. Roy Armstrong, Mr. and Mrs. Victor Scott and "Scottie".
The dance at "Plaza Oulmette" on Saturday night was well attended.

A house party was held on Saturday evening at the home of Mr. and Mrs. Harry MacAulay. Everyone reports a good time.

Mr. and Mrs. R. G. Scott and family, Mr. and Mrs. Fred Peters of Edmonton, were weekend-end visitors at "Dunwurken" camp. Mrs. Scott, with Manerva and Jack, are stopping for a week as guests of Mr. and Mrs. Victor Scott.

Mrs. O. A. Brown of Brightview, was taken suddenly ill while visiting at the lake on Sunday. She was taken to "Dunwurken" camp and Dr. McColgan was soon in attendance, making the trip from Wetaskiwin to the Lake in an hour, which is record time over the rough roads. Mrs. Brown was able to return to her home on Monday, although in a very weak condition. Her many friends hope for a speedy recovery.

The Crooked Lake Junior Band was present at the Lake on Sunday. They played many selections, which were enjoyed by a large crowd. Mr. Carl Jenve, leader of the band, is to be congratulated on the progress this band is making.

The "purple and white" were very noticeable at Pigeon Lake on Wednesday, July 24th, when the Elks of Leduc held a basket picnic at the Oulmette picnic grounds. Sports of all kinds were held during the afternoon, and a dance was held during the early hours of the evening.

Mrs. Stanley Scott and Mrs. Dick Wagner of Millet, with their guest, Mrs. Mary Morris of Wetaskiwin, are spending two weeks in one of the Oulmette cottages.

Mr. and Mrs. George Mulligan, Jr., of Edmonton, are spending a few days with Mr. Mulligan's parents. George had the misfortune to be in a car accident a few days ago in Edmonton, where he received injuries about the

A very delightful surprise party was held at the home of Mrs. D. Whitmore on Thursday last, when a number of friends gathered to wish "Good luck" to Mrs. Whitmore and family, who are leaving this week to join Mr. Whitmore in Detroit, Mich.

An extra surprise was provided by Mr. and Mrs. Wallis of the store, in the shape of ice cream, which was greatly enjoyed by all.

Outdoor games were played until dusk, when everyone adjourned to the home, where some very nice musical numbers were enjoyed, after which Mrs. Whitmore was presented with a beautiful handbag.

The presentation was made by Mr. A. P. Ewart, who spoke briefly but appreciatively, of Mrs. Whitmore's work on the school board, and also of her help and untiring efforts to make a success of each one of the Christmas concerts held at Brightview school since she first came here.

Mrs. Whitmore, though taken completely by surprise, responded very feelingly and expressed her regret at leaving the community.

A very dainty luncheon was then served by the ladies, and the evening was brought to a close with "Auld Lang Syne."

CHERRY GROVE

Mr. and Mrs. Neddy Robinson and two daughters Sila and Berra, of Edmonton, are spending a few days at Mrs. A. Doupe's.

Mr. Tom Cherrington is expecting his sister, Mrs. Chas. Masfen of Victoria, B.C., with her daughter Dorothy, to visit him next week.

Mr. and Mrs. Frank Ballhorn and Mr. and Mrs. Ernest Switzer motored to Lacombe and spent a day with the latter's cousin, Percy A. Switzer.

The Stevenson sisters, who were assisting with the musical part of the services at the camp convention at Pigeon Lake, are conducting a Bible study school this week and next in New Sweden church for all the children of the district.

We had an old timer, Harry Wallace and his wife and daughter Laverne, visiting in this neighborhood last week. Mr. Wallace motored up from his home in Idaho and after calling on old neighbors here and at Battle River, his old home, went on to visit his sister, Mrs. Ben. Shantz, in Edmonton.

Mr. Bert McRae of Vancouver, is here for a short time at his old home, giving the buildings a fresh coat of paint.

Mr. and Mrs. John Arnold have returned after visiting for a week in Elmore, the guests of Mrs. Merrill.

TELEPHONE 11****WHEAT POOL NOTES**

Over 400 agents of Alberta Pool Elevators were assembled in Calgary last week at a four days' Convention and every phase of the Pool elevator business was fully discussed. H. W. Wood, chairman of the Board of Directors of the Alberta Wheat Pool, in his opening remarks strongly recommended that the agents would best serve the Pool's interests by dealing with the members with the utmost fairness. He pointed out there was no incentive under the Pool system of elevator operation for any agent to deal unfairly with any member. The Pool Elevator system is not operated for profit, Mr. Wood declared, but solely on the basis of service to the membership.

Following the cut-off on the 15th of July when the 1928-29 Pool was closed, the Alberta Wheat Pool is taking court action against Pool members who failed to deliver all the wheat they raised during that crop year. The Pool contract calls for the delivery of all wheat raised by each Pool member within the confines of the Province and the stipulated penalty for infractions is 25 cents a bushel. While the great bulk of the members are loyal, there are some who have apparently overlooked their legal obligations, and the organization is taking energetic action against the latter. It is realized by the Pool that court action is undesirable but at the same time it is not fair to the bulk of the membership for a comparatively small number to act disloyally and flout their contract.

R. D. Purdy announced at the Convention of Pool Elevator agents that the Alberta Wheat Pool now owns 438 elevators spread over the length and breadth of this Province. This is an increase of approximately 135 over the number operated last year, and makes the Alberta Pool easily the largest elevator organization in Alberta. The Pool has now facilities to handle approximately 99 per cent of all Pool wheat.

The Alberta Wheat Pool will pay farm storage to Pool members who hold their wheat on their farms until Monday, December 2nd, the amount being 2 cents per bushel. This decision was recently arrived at by the Directors of the organization. Last year the Pool paid farm storage on a different plan, 1 per cent per bushel being paid on wheat held until December 1st, and an additional 1 cent for wheat held on farms until March 1st.
